EDUCATION

- **S.R.M. Institute of Science and Technology** | Kattankulathur, Chennai | Aug 2023 – 2027
B-Tech Computer Science & Engineering | Cgpa: 8.36 | 4th sem: 9.19
- **Kandi Raj High School** | Murshidabad, West Bengal | (X) State Board 2020 | (XII) State Board 2022

SKILLS

- **Hard Skills:**
 - Languages: Java, Python
 - Web & Backend: Node.js, Express.js, REST APIs, React.js
 - Databases: MySQL, MongoDB
 - Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks, SEPM
 - Tools & Cloud: AWS (S3, Glue, Lambda), Git, GitHub, Linux
- **Soft Skills:**
Communication | Leadership Skills | Decision Making | Critical Thinking | Team Management | Project Management

PROJECTS

- **Digital Local Shopping** | [GitHub](#)
 - Built a full-stack e-commerce platform using Node.js, Express, and MySQL.
 - Designed and implemented REST APIs for product, order, and user management.
 - Integrated Socket.IO for real-time order updates.
 - Optimized backend workflows using RDBMS for faster response and data consistency.
- **AI-Powered Resume Skill Gap Analyzer** | [GitHub](#)
 - Developed RESTful APIs using FastAPI and MongoDB for a skill-gap analysis platform with resume parsing and job matching.
 - Implemented API testing and validation for authentication, resume upload, and analysis endpoints.
 - Designed test cases for NLP pipelines (spaCy-based skill extraction) to ensure accuracy.
 - Debugged backend workflows and improved data processing performance and reliability.
- **Modify-An AI Based Emotion Recognition & Recommendation System** | [GitHub](#)
 - Developed and tested a Flask-based emotion detection app using CNN with integrated recommendation engine.
 - Validated model predictions and performed edge-case testing to ensure accuracy and reliability.
 - Designed test cases for recommendation modules (TF-IDF, cosine similarity, genre filtering).
 - Debugged workflows and optimized pipelines to improve system stability and response time.

INTERNSHIPS

- **Zidio Data Science** | Jan 2025 – Mar 2025
 - Developed and tested Python-based data analysis pipelines using NumPy and Pandas.
 - Implemented NLP preprocessing pipeline and validated outputs for accurate text classification.
 - Integrated MySQL for storage and debugged data workflows to ensure consistency and reliability.
- **AWS AICTE Data Engineering** | Dec 2025 – Feb 2025
 - Worked with ETL pipelines using AWS Glue for structured data transformation and validation.
 - Built scalable data lake architecture using Amazon S3.
 - Queried and validated large datasets using Amazon Athena and Redshift.
 - Implemented ingestion workflows ensuring data consistency.
- **AWS AICTE AI & ML** | Mar 2025 – May 2025
 - Trained ML models using Amazon SageMaker and validated performance using evaluation metrics.
 - Performed data preprocessing and debugging to improve model accuracy.
 - Evaluated models using accuracy, precision, and recall metrics.
 - Deployed ML models and ensured stable performance in cloud environment.

EXPERIENCES

- **Business Associate at WellWith, AYUZERA (Shark Tank Startup)** | Jan – Dec 2025
 - Analyzed engagement data from 100+ student interactions to identify performance trends.
 - Led a team of 6–10 members and tracked weekly performance metrics.
 - Improved outreach efficiency through structured planning and reporting, applied data analysis techniques to optimize campaign strategies.

COMPETITIVE PROGRAMMING

- Solved 80+ DSA problems on LeetCode
- Problem Solver – Bronze Badge on Code Chef

CERTIFICATIONS

1. NPTEL DSA | [Link](#) | Jul – Oct 2025
2. NPTEL Machine Learning | [Link](#) | Jul – Sep 2025
3. Aspire Leadership Program Harvard Faculty Affiliated | [Link](#) | Oct, 2025

HOBBIES

Fitness, Guitar, Puzzle Solving
